

Wellness Committee Modifications

For the 2019 - 2020 School Year

Goals

1. The Food Service Director (Mrs. Kim Whitmer) will continue to research and implement the “Farm to You” program. This program encourages school cafeterias to buy and serve local fresh foods.
2. Elementary Counselor (Sue Dunn) will put together bags of goodies for new students.
3. Parental Involvement Professional Development - We did this during the PD days before school started. Ms. Paula Cathey, Mrs. Monica Pitts and Mrs. Sue Dunn presented a booklet of local resources available to parents and staff. The booklets are provided by Mr. Arnell Washington, S. W. Region Administrator for the Ar. Dept. of Health, Calhoun County Health Unit. They were available for parents at the first Parent/Teacher Conference. They are also available now in the High School and Elementary Office.
4. The Elementary Counselor will update the Health Survey she gave to the K - 6 teachers last year and have them fill it out again. It tells what standards are being taught in what class and in what grade.
5. We will review the cafeteria menus at our second semester meetings.
